GUIDE SERVICE, LLC

October 18, 2008

Yesterday we had the pleasure of guiding 11 year old Spencer Brent on his first ever deer hunt. After a gun safety speech and "hands on" demonstration, we headed to the rifle range where Spencer soon mastered shooting the .280 Remington. Afterwards, we departed for the ranch with Spencer's mom photographing the hunt. Spencer soon bagged his first deer with a single 80 yard shot. By the day's end, he would successfully

harvest a total of 4 deer with only 4 shots. Showing off? Absolutely not, just fact! Spencer's fine marksmanship helped us to manage our burgeoning whitetail deer herd while providing fresh venison for his family and friends. Good job Spencer!

October 11, 2008

This past weekend we hosted husband and wife team Neal & Tery Terry of New Mexico on a doe & cull buck hunt along with Anthony & Christopher Gaglio from Connecticut who were on a father/son combination doe & predator hunt.

By the end of the weekend Neal & Tery harvested 28 doe deer under the MLDP (Managed Lands Deer Program). During this hunt, Neal a professional sniper instructor treated us to a long range shooting seminar including ranges all the way out to 719 yards. He demonstrated his real life capabilities by firing a rapid 3 shot group at 300 yards that measured less than 2 ½ inches! Anthony & Christopher harvested numerous doe deer along with several species of predators including; bobcat, fox, raccoon and ringtail cat.

## October 4, 2008

Ryan Lupton was the winner of the West Texas United Blood Services drawing where Magnum Guide Service, LLC along with Randee Fawcett of Encino Ranch Company donated a guided management buck and doe hunt. Also donated were a pair of Bushnell binoculars by Neil Grant of The Outdoorsman Sporting Goods in San Angelo, TX and free deer processing by Paul and Mark Sklenarik of Sklenarik's Smoked Meats in Miles, TX. Ryan brought his dad Steve Lupton as a non-hunter. Steve has been battling leukemia since last Christmas when he was diagnosed with the disease. Getting out and enjoying God's creation while hunting with his son was exactly what the doctor ordered.

## September 27, 2008

This weekend we were proud to host Danny Gray's "Mississippi Wild Bunch" on a doe & cull buck eradication hunt held on the expansive "Encino Ranch." A grand time was enjoyed by all participants and the lead flew freely as they helped us manage the ranch's surplus doe population. A couple of designated cull bucks were also harvested with surgical precision. By the end of the weekend they would score 49 confirmed kills. Thanks for the help men and look forward to next year!
